1.0 PRODUCTION MILLER-CYCLE NATURAL GAS ENGINE

Tsukida, N., M. Takayanagi, and K. Okamoto, Tokyo Gas Co., Ltd., and T. Abe, Y. Noda, and T. Takemoto, Yanmar Diesel Engine Co., Ltd., "Development of Practical Use of the Miller Cycle Gas Engine for Power Generation," SAEJ* No. 9933196, May 1999.

2.0 MEDIUM-DUTY NATURAL GAS TRUCK ENGINE

Murakami, Y., H. Mutoh, T. Kaneda, K. Tomizawa, H. Ogiso, and S. Uematsu, Hino Motors, Ltd., "Development of Natural Gas Engine for Medium-Duty Trucks," SAEJ No. 9932944, May 1999.

3.0 COMPRESSION-IGNITION OF PREMIX NATURAL GAS

Kawabata, Y., K. Nakagawa, and F. Shoji, Tokyo Gas Co., Ltd., "Operating Characteristics of Natural Gas Fueled Homogeneous Charge Compression Ignition Engine," SAEJ No. 9932953, May 1999.

NOTE: English titles are provided by the original authors.

4.0 EVALUATION TECHNIQUE FOR VALVE-SEAT WEAR AND LOW- POLLUTION VALVE SEAT

Maki, K., A. Ehira, and S. Abou, Nissan Motor Co., Ltd., A. Ishibashi and Y. Kawakami, Riken Corporation, and T. Kenmoku and A. Hamada, Fuji OOX, "Development of a Method for Analyzing and Evaluating Valve Face and Valve Seat Insert Wear," SAEJ No. 989137, October 1998.

Ehira, A., K. Maki, and M. Toriumi, Nissan Motor Co. Ltd., and K. Ishii, K. Hayashi, and H. Kawata, Hitachi Powdered Metals Co. Ltd., "Development of a High Performance Lead Free Exhaust Valve Seat Material," SAEJ No. 9839128, October 1998.

5.0 PREMIX HYDROGEN ENGINE EFFICIENCY AND HYBRID VEHICLE APPLICATION

Shudo, T., T. Futakuchi, and Y. Nakajima, Musashi Institute of Technology, "Thermal Efficiency Analysis in a Hydrogen Premixed Spark Ignited Engine," SAEJ No. 9932926, May 1999.

Nakajima, Y., M. Hiruma, K. Yamane, and T. Shudo, Musashi Institute of Technology, Y. Takagi, K. Naito, and A. Teraji, Nissan Motor Co., Ltd., "Research and Development of a Hydrogen Fueled Engine for Hybrid Electric Vehicles," SAEJ No. 9932935, May 1999.

6.0 TRANSAXLE DEVELOPED FOR A HYBRID ELECTRIC VEHICLE

Matsui, H., K. Kondo, R. Ibaraki, and H. Ito, Toyota Motor Corporation, "*Development of Transaxle for Hybrid Vehicles,*" SAEJ Journal Vol. 52, No. 9, Page 50 ~ 54, Paper No. 987733, September 1998.

Ohshima, K. and K. Kondo, R. Ibaraki and H. Matsui, Toyota Motor Corporation, "*Development of Transaxle for Hybrid Vehicle,*" SAEJ No. 9932241, May 1999.

7.0 THE CAPACITOR-TYPE BATTERY AND ENERGY RECOVERY

Ikeda, T., Y. Daisho, M. Tsukimoto, and T. Saito, Waseda University, "*Simulating Energy Storage Characteristics of Batteries and Ultra-Capacitors in Electric Vehicle and Hybrid Vehicle,*" SAEJ No. 9932115, May 1999.

Hayashida, M. and K. Narusawa, Traffic Safety and Nuisance Research Institute, "*Energy Regeneration of Electric Vehicle by Super Capacitor and Battery,*" SAEJ No. 9932089, May 1999.
